

## **Glasshouse Gym and Pool - COVID19 Restrictions**

The NSW Government has relaxed COVID19 restrictions as from Monday 29th March 2021.

Note that the following Government directive is remaining:

- "Businesses and other organisations must continue to ensure they keep accurate records of all attendances, including through QR Codes, to enable fast contact tracing in the event of any community transmission."

Based on this, the Community Association (which is responsible for managing the Glasshouse Gym and Pool) will relax the restrictions as follows, with effect from Monday 29th March 2021:

1. users **MUST** log in and out via the QR Code every time they use the Gym or Pool;
2. users **MUST** use the supplied sanitised wipes to sanitise machines & other equipment when they have finished with them;
3. users **MUST** use common sense in respect of numbers, i.e. if they see the gym or pool is crowded, come back at another time; and
4. users will still be required to obtain a key from Security, at which time they should scan the QR code.

On this basis, we will discontinue:

1. the booking system; and
2. limit on numbers in the pool.

The number in the gym will remain at 5 for the time being.

Note that this can all change if:

1. users fail to follow these common-sense guidelines; or
2. there is an increase in the COVID19 risk in the community.
