

UPDATED FACILITY RULES

Thanks to residents who gave feedback on the rules. They are made to maximise the use and convenience of as many residents as possible. We have taken on board a number of suggestions, but in a community of 2500 people, we are not able to satisfy everyone. Download the revised rules from the website: jacksonslanding.net.au. Please familiarise yourself with the rules of the facilities you use, and encourage other users to do likewise.

The main changes are to the rules for the Glasshouse pool. New signs advise guidance on lap swimming and the priority play area, which includes children's play and adults' gentle exercise. We encourage everyone to respect other users and, where possible, choose less crowded times to swim and exercise.

We have had to reduce the number of children in learn-to-swim classes and restrict them to Jacksons Landing residents.

Personal trainers are allowed in the Glasshouse gym, but must not disturb other users.

Multiple bookings for the tennis courts and Station cannot be made by more than one occupant of the same unit.

COMPLICATING OUR LIVES

Residents in and around Jacksons Landing will be seriously affected by Transport for NSW's plan to close the right-hand turn at the foot of the off-ramp from Anzac Bridge – a convenient way to reach JL from the bridge. Instead, traffic will proceed south to Pyrmont Bridge Road, then turn left and left again into Harris Street. In Harris Street, drive north to Miller St, John St or Bowman St. This will involve delay at four traffic lights.

This rearrangement will take effect when the Fish Markets move to new premises in early 2025. Residents who object to this plan should protest to the Premier, Chris Minns, and the Minister for Roads, John Graham, stating their objections: nsw.gov.au/nsw-government/ministers

FLEETVIEW JOINS ANTIAS WITH 5 STARS!

Fleetview has just completed its second NABERS assessment and increased their rating to 5 stars after implementing several sustainability improvements. (NABERS measures and rates buildings' environmental performance.) Their 48% reduction in power usage will save \$50K/year, by using LED lighting and motion detectors in the car park, hallways, etc, carbon monoxide monitoring to control car park ventilation, and a solar system on the roof. They are now considering how to enable installation of EV chargers in car spaces.

Antias reports a saving of 50% of power costs.

MAPPING OF PRE-COLONIAL SYDNEY

Brian Webber from the University of Sydney uses archaeological and research skills of the ancient world to tell us about Sydney prior to the arrival of the First Fleet.

On Sunday 19 May at 5pm, join us at the Station to hear the talk and stay for the drinks and nibbles - free, donations welcome.

PARKRUN BEGINS IN PYRMONT

Pyrmont is about to join over 2000 events around the world, run by volunteers.

More volunteers are needed here - would you like to get involved?

Parkrun volunteers assist the run director each Saturday with time keeping, bar code reading, u-turn marshals, tail walkers and blind corner marshals.

All are essential roles. The parkrun cannot start without these volunteers. You don't have to be a runner and training is provided. Once we have full funding Pirrama parkrun will be held every Saturday 8am in Pirrama Park.

If you would like to get involved in this amazing event or if you have already registered your interest, please send your EMAIL details to pyrmontpt@bigpond.com or DM 0408 477 778.
